DECLARATION OF ANNE P. HOVIS

RECEIVED

DEC 01 2004

OFFICE OF PETITIONS

Dear Sir:

I, Anne P. Hovis, declare the following upon information and belief:

1. I am providing this declaration to provide information to the Patent and Trademark Office in support of a petition to revive U.S. Patent Application Serial No. 09/670,346 (hereinafter "the '346 application") identified above.

2. On March 3, 2000, a subsidiary of Phlo Corporation, a Delaware corporation, licensed certain technology, including that covered by the '346 application, directly from inventor Robert G. Lamb, Ph.D. I am the Executive Vice President and General Counsel of Phlo Corporation ("Phlo").

3. In mid-2000, Phlo retained the law firm of Arent Fox Kintner Plotkin & Kahn (hereinafter "Arent Fox") to prosecute the '346 application. At that time, Phlo had an existing relationship with Arent Fox with respect to other (unrelated) legal matters. Pursuant to the

arrangement between Phlo and Dr. Lamb, the Arent Fox attorneys were instructed to communicate with both Dr. Lamb and Phlo concerning prosecution of the '346 application.

4. I am aware that the Patent Office issued an Office action in the '346 application dated May 21, 2002. After the Office action was issued, Phlo personnel (including me) worked with Arent Fox and with Dr. Lamb in the preparation of an amendment to the '346 application (and supporting papers) that Arent Fox filed with the Patent and Trademark Office on October 25, 2002.

5. Between October 25, 2002, and October 22, 2004, neither I nor Phlo received any further updates from Arent Fox that there had been further developments from the Patent and Trademark Office in the '346 application that occurred after October 25, 2002. Specifically, neither Phlo nor I received information from Arent Fox that the Patent Office had issued a Notice of Allowance or a Notice of Abandonment.

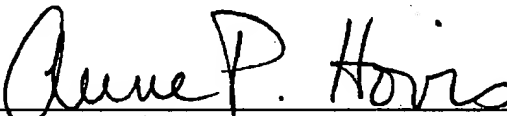

6. During the almost two year time period specified in the preceding paragraph, I contacted Arent Fox attorneys from time to time to inquire about the status of the '346 application, but was never told that the Patent Office had issued a subsequent communication such as a Notice of Allowance or Notice of Abandonment. In or about October 2003, I was told by an Arent Fox attorney that Arent Fox had received no communication from the PTO regarding the '346 application.

7. Phlo and I were first made aware of the issuance of a Notice of Allowance (dated 01/03/2003) and issuance of a Notice of Abandonment (dated 04/14/2003) in the '346 application by Robert Lamb on or about October 19, 2004. The '346 application was abandoned without my intent and without the intent of Phlo.

8. Promptly after learning of the status of the application, I began working with Dr. Lamb to retain alternative patent counsel to help us with the '346 application. After inquiries to multiple law firms, Advanced Bio-Delivery (a company within Phlo's corporate group) ("ABD") retained Marshall Gerstein & Borun LLP to assist with prosecution of the '346 application.

Specifically, ABD retained Marshall Gerstein & Borun LLP to determine Dr. Lamb's right to revive the '346 application from abandonment and assist with a petition to revive it. The process of researching, interviewing, and retaining another law firm, including the law firm's conflict check and negotiation of a retainer agreement, took a couple of weeks.

9. I further declare that all statements made herein on the knowledge of the undersigned are true and that all statements made on information and belief are believed to be true, and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment or both under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent granted thereon.

AND TRADEMARK OFFICE**

3. With my understanding and approval, Phlo Corporation (hereinafter, "Phlo") retained the law firm of Arent Fox Kintner Plotkin & Kahn (hereinafter "Arent Fox") to prosecute the '346 application on my behalf, and I granted a power of attorney to the attorneys and agents of Arent Fox to prosecute the '346 application. Pursuant to my arrangement with Phlo, the Arent Fox attorneys were instructed to communicate with both Anne Hovis (on behalf of Phlo) and me concerning Patent Office correspondence concerning the '346 application. (See Exhibit A, 2/16/01 letter, Arent Fox to Robert Lamb.)

4. I am aware that the the Patent Office issued an Office action in the '346 application dated May 21, 2002. After the Office action was issued, I worked with Arent Fox and with representatives of Phlo in the preparation of an amendment to the '346 application (and supporting papers) that Arent Fox filed with the Patent and Trademark Office on October 25, 2002.

5. Pursuant to the arrangement described above in paragraph 3, I relied upon Anne Hovis and Arent Fox to keep me updated concerning the '346 application. Between October 25, 2002, and October 22, 2004, I did not receive any further updates from Arent Fox that there had been further developments from the Patent and Trademark Office in the '346 application that occurred after October 25, 2002. Specifically, I did not receive information from Arent Fox that the Patent Office had issued a Notice of Allowance or a Notice of Abandonment.

6. During the almost two year time period specified in the preceding paragraph, I contacted Anne Hovis on a number of occasions to determine the status of the patent application. (At least five times from 3/19/03 to 10/20/04.) Attached as Exhibit B are printed copies of electronic mail communications between Anne Hovis and me concerning the status of the application. These emails memorialize the fact that I periodically asked Anne Hovis about the status of the '346 application. In response to my inquiries, Anne Hovis told me that Phlo had received no further substantive Patent and Trademark Office communications after the amendment that we filed in October, 2002 and that Arent Fox had informed her that

there had been no such communications received by Arent Fox. (Some information that is not relevant to my status inquiry has been deleted from the printed emails.)

7. In June of 2003, I also telephoned and e-mailed Arent Fox attorney Richard Berman to inquire about the status of the '346 application, but I received no response.

8. On October 12, 2004, I granted Glenna Hendricks, a patent attorney with whom I had previously worked, a power to inspect and make copies of the '346 application file. Due to the long delay in communications since October 2002, I wanted Attorney Hendricks to determine the status of the '346 application.

9. On October 19, 2004, Atty. Hendricks informed me of, and I first became aware of, the following:

a) a Notice of Allowance had been issued by the Patent and Trademark Office ("PTO") showing a mailing date of January 3, 2003, to Arent Fox, the notice of allowance requiring an issue fee to be paid on or before April 3, 2003, in the amount of \$650;

b) a Notice of Abandonment had been issued by the PTO showing a mailing date of May 14, 2003 to Arent Fox.

10. The application was abandoned without my knowledge and without my intention to abandon it. I did not become aware of the abandoned state of the application until notified by Attorney Hendricks on October 19, 2004. Had I been made aware of the Notice of Allowance in a timely manner, I would have paid the issue fee to get the patent issued.

11. When I learned that the application became abandoned, I promptly communicated the status to Anne Hovis at Phlo.

12. Since the time I learned of the unintentional abandonment, I have made every effort to have this petition to revive filed as quickly as possible, which filing required the location and retention of mutually acceptable counsel to assist in the filing.

13. I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
